Africa Travel Co Covid policy:

Please visit www.sacoronavirus.co.za for more information regarding the national Covid regulations in South Africa.

Dear friends in travel

With the challenges and changes that the corona virus has brought to the world, the travel industry has had to adapt to a set of new circumstances. We are excited to restart travel and ATC is strong as ever and ready to face these challenges head on in order to provide our valuable clients with our exciting trips that have entertained the citizens of the world for more than 30 years.

We want our agents and travellers to know that we will take all necessary precautions to ensure that our clients have a safe and enjoyable trip.

All clients will have to sanitize their hands and have their temperatures taken every time they board the truck. When starting a trip, every client will be assigned a specific seat on the truck and will have to remain in the particular seat for the remainder of the trip. This will ensure that we minimize any risk of infection that might arise due to seat rotation.

Passengers, as well as crew, will also need to wear a mask at all times, excluding meal times and of course sleep times. Mask wearing will also be applicable to public spaces we visit. Seats will be fitted with disposable head rest covers that will be changed with every new trip, when seats are changed. Luggage will be sanitized whenever it is loaded on to the truck (at every new stop). Each truck will have a sanitizing station as well, where clients can sanitize themselves at their own discretion over and above the compulsory sanitizing. The truck will be sanitized before every trip.

We will also need to adhere to all additional covid-compliance measures enforced by every country we visit. Our guides are trained in First Aid and can administer emergency assistance when needed. All travellers must have comprehensive travel insurance. Single travellers will be allocated their own tent to minimize the risk of infection, but we will limit the number of single travellers on each trip to a maximum of 5 travellers. Our reservations team will advise on the availability of single seats on each trip.

We believe that with the above-mentioned measures, we will be able to offer clients a safe, enjoyable and memorable trip and restart travel safely and responsibly.

Yours sincerely

The Africa Travel Co team
